SOFT SKILL DEVELOPMENT PROGRAMME

Former Hon. Vice Chancellor of Savitribai Phule Pune University, Pune Dr. Narendra Jadhav Realized that students from rural area are intelligent, hard workers but have lack of confidence, poor in English communication skill so far developing their personality soft skill development programme was started with his idea.

For this programme Professors from the different colleges were selected as trainers for training. The university had provided the 10 days training programme for trainers to conduct the soft skills for the third year Arts, Science and commerce students at their home college. The Hon. Principal H. R. Aher had selected the three teachers Prof. Dr. Mrs. M. H. Aher, Prof. Dr. S. N. Bhamare and Prof. Dr. D. M. Survase as trainers for the training.

Since the academic year 2007-2008 the college has started the programme in one or two batches every year. For personality development the ten days schedule from 11.00am up to 4.00pm was organized. The imminent speakers were invited from different fields to conduct the soft skill activity which touches all the aspects of personality. Soft skill serves to represent the approach of the student to life and work. It helps interpersonal skills hardwired to an individual's personality; and communication abilities among students which needs for the long-term success. This programme provides meaningful knowledge to the students in the modern business landscape. It helps them to understand how their work affects their peers, the job places, and the world around them.

Soft Skill Development Programme is life changing and milestone for the rural graduate students. programme is designed and undertaken only in our Savitribai Phule Pune University and its affiliated colleges since 2006-07. programme is organizes only for third year Art's , Commerce & Science Students. The Rural students are hard worker but they are poor in communication skill, interview techniques, body language, and English conversation. Urban

students try to speak in English and do the smart work hence they are successful, this problem understood by Hon Former V.C. Dr. Narendra Jadhav and he started the same.

In this ten days programme well known, devoted and experienced person guides the selected students by his/her experiences, preparation of ppt, practically and theoretically for whole day in two sessions. Similarly each and every resource person tries to giving his best contribution on different topics. Due to this students get inspired and this helps to complete their burning desire in future. Main aim of this programme is to make aware the rural students about interview techniques, communication skill, group discussion, time management, goal setting, body language, SWOT analysis, value education, presentation skill etc.

After ten days successful trained students acquires boldness, dare to talk in English, enhanced communication, knowing importance of timely hard work, knowing how to face interview and all that basic things which is not learnt in the syllabus.

We are getting better feedback of many past students and they said that because of only this programme we got success in our life and thanks for organizer of this programme. Our Principal congratulates to all the team of Soft Skill Development Programme.
